

2012

This mixed-use development is located in an area that had long suffered from blight due to disinvestment and out-of-town ownership.

The project involved renovating 10 residential properties and four commercial storefronts in a highly distressed neighborhood.

All of the residential units and three out of four commercial spaces were quickly leased, bringing new residents, businesses and jobs to Walnut Hills.

IMPACT

- 10 renovated apartments in a highly distressed neighborhood
- 4 updated commercial spaces to support job and business growth

\$185,000 Regional Loan/Storefront Fund
