

2014

Clifton Natural Foods had been a fixture in the Clifton Heights community for nearly 30 years when the building where it leased space was sold and scheduled for demolition.

The local husband and wife operators were able to secure a lease in a new storefront. They used the unexpected move as an opportunity to expand fresh food options to include more produce and organic dairy.

Located near the neighborhood borders of Clifton and Clifton Heights, the store serves an economically diverse customer base.

IMPACT

- Increased healthy food access for low-income neighborhoods
- Added SNAP and expanded items approved for WIC
