

2015

Market Square is a broad revitalization project adjacent to Cincinnati's historic Findlay Market.

The development will include a 5,000 sf compact urban fresh food grocery market.

Despite the diverse selections at nearby Findlay Market, it is impossible to purchase inexpensive breads, dried pastas, canned goods, paper products and common everyday groceries there.

The new market, to be operated by Fresh Table, will offer extended hours and broader choices in this highly-distressed neighborhood.

IMPACT

- Improved access to healthy, affordable food.
- Expanded hours to meet neighborhood needs.
